

Insurance products for the long haul

Go the distance with insurance tailored for commercial vehicles

Commercial fleet, bus, coach and heavy haulage owners are faced with a range of challenges unique to their industry. That's why we have gone the distance to gain an extensive understanding of the heavy motor and transport industry and to negotiate the best value cover for these individual needs.

At Nadic, we can identify, analyse and evaluate your risks and provide suitable risk management recommendations to give you confidence for the long haul, whether you operate heavy

motor vehicles, light commercial vehicles, bus and coach operators, commercial sedan fleets and heavy mobile plant and equipment.

Our access to exclusive cover from underwriters dedicated to the transport sector, from commercial/fleet insurance through to business packs for operators and life insurance for drivers in the transport sector, should give you the confidence to keep on trucking.

Cover for the transport industry

The transport industry faces a range of risks that require coverage from insurance, including but not limited to damage to vehicles, damage to freighted goods and interruption to normal business.

As such we can arrange comprehensive coverage for single commercial vehicles and operators, fleet owners and on-site operators, no matter what size or how involved your fleet or heavy transport requirements.

Nadic can design a competitive transport insurance package to cover your business anywhere in Australia.

Our insurance products provide cover for

- Commercial Motor Insurance all sizes
- Windscreens
- Hire Vehicle Options
- Down Time Covers
- Marine Transit Cargo Insurances
- Liability Insurance
- Flexible Radius options
- Dangerous Goods Cover, and
- Income Protection & Life Insurance for the drivers.

Our range of policies include:

- Driveline commercial/fleet insurance
- Driveline transport package
- Downtime/business interruption
- Business pack insurance
- Public and products liability
- Carriers transit insurance, and
- Accident assist.
